

NOTICE

In coordination with the City of Lighthouse Point, the City of Pompano Beach Utilities Department will be performing roadway restoration for the Phase III installation of the Lighthouse Point reclaimed water main expansion project. The restoration will be adjacent to NE 27th Street along NE 26th Avenue, NE 26th Terrace, NE 27th Avenue and NE 26th, NE 25th and NE 24th Street.

Commencement of the roadway pavement will be on Monday, March 22nd, 2021. Paving contractor Hardrives anticipates that the work will take approximately a week to complete, contingent on any inclement weather conditions. Temporary and permanent roadway stripping shall follow.

During this time, we ask that you remove any vehicles or obstructions from the roadway that may prohibit the restoration. Intermediate flagmen operation with one lane closure will impact traffic along the aforementioned streets as the work progresses.

If you should experience any construction-related problems or have any questions concerning this work, please contact:

Nathaniel Watson, Water/Reuse Construction Manager
City of Pompano Beach Utilities Department
(954) 786-5508
